Wendover Air Force Base,
Link Trainer Building #6 Base
Engineering Maintenance Shop)
(Building No. 1804)
HABS NO. UT-125-X
Page 1

This building was built by H & D in 1943 and is located between 7th and 8th Streets with access off A Street. The type of construction is "Semi-Permanent," Mobilization, "Link Training 8 Addition, Job A (8-13)," C.A.C. The building is 4,820 square feet, built from plan 1000-760 at a cost of \$7000.00. Building 1804 is located between 7th & 8th Streets with access off A Street.

One of the longest structures on the base, this one-story, wood frame building measures 25 feet-3 inches by 191 feet. Its broadsides face north and south. The foundation and floor are of concrete, the walls clad in horizontal wood side, and the gabled roofs covered with asphalt roll roofing. Coal-fired "Mueller" furnaces provide forced-air heat. Inside are a series of small rooms, restrooms, a shower, fountain, and a variety of fluorescent and incandescent lights. The exterior features 16-pane windows in square bays, and several 5-panel doors. Although needing maintenance repairs, the structure appears to be in good condition.
